

Employee Experience

Turn your employees into brand ambassadors

Gather continuous feedback from employees at every meaningful moment in the employee journey. Hear your employees and give leadership the tools they need to take action that improves engagement, productivity and employee satisfaction.

BENEFITS:

-  Collect feedback at every meaningful touchpoint in real-time
-  Automatically route responses to the people in the best position to make changes
-  Drive employee behavior to improve customer experiences

FEATURES:

-  Send requests after each service interactions and see your response rates, visibility, and results improve quickly
-  Create real time performance leaderboards to create competition
-  Map the performance directly to your internal performance and payroll systems
-  Share happy and unhappy customer feedback directly with the agent to encourage them and enable self improvement
