XM Platform Score

Qualtrics calls themselves a "System of Action" focusing on the 4 core experiences of the enterprise business; Customer, Product, Brand and Employee Experience. They focus on omni- channel data collection, listening to nearly every interaction type including video, voice, social, chat, and reviews. Known as a leader in CX data analytics,

they do not have behavioral automation or reputation features. They serve thousands of enterprise customers and are a premium, consultative provider, and charging for both the platform and professional services.

Experience Management Platform Score See How Qualtrics Stacks Up

While our competitor focuses on experience data and insights for customers and employees, Experience.com's complete experience platform also includes reputation management features and employee-centered feedback workflows to elevate your customer and employee experiences.
